

Cannon Falls Schools Classroom Size Guidelines

Adopted: 11/24/14
Updated: 5/14/2018

1. Purpose:

The purpose of these guidelines is to provide guidance to the administration of Cannon Falls Schools for classroom size. Using and applying this information should result in the following:

- A consistent method and procedure in determining class size.
- A clear message to incoming families about our dedication to class under 25.
- Maintaining the integrity of the Cannon Falls Schools.
- Cannon Falls Schools Board recommended.

2. Guidelines on classroom size:

It is difficult to set a classroom size (one size fits all) as a standard that would be appropriate for all situations. The administrative leadership team will consult the school board on unique situations that do not follow the guidelines.

Special Education Elementary Grades K–5 for Resource Services.

- Resource Services: mild/moderate—Caseload range 14–18
- Occupational/Physical Therapist—Caseload range 1–60
Less than 20 = .25 FTE 20-30 = .5 FTE 30-60 = 1 FTE
- Speech and Language Pathologist—Caseload range 1–60
Less than 20 = .25 FTE 20-30 = .5 FTE 30-60 = 1 FTE

If the school exceeds the caseload range on any category and requests additional special education staff, the Special Education Director will receive the request for additional staff and will work with the Superintendent and Building Administrator to determine needs.
