## 1 to 1 Device Protection Plan

### GRADES 6 - 12

Cannon Falls Area Schools recognizes that with the implementation of the 1 to 1 initiative there is a need to protect the investment for both the district and the family. Three options are available for protecting the device. Please review the information below, record your choice and return this document, the student parent agreement of acceptable use to the office and if chosen, the \$25 insurance premium.

The 1 to 1 device Insurance cost will provide insurance coverage for accidental damage (drops/spills), cracked screens, theft, vandalism, fire, flood, natural disasters, and power surges due to lightning. The insurance cost will not provide coverage for lost devices. The \$25.00 payment is nonrefundable. This annual coverage begins upon receipt of the payment and ends at the conclusion of each school year. **The 1 to 1 device Insurance cost does not cover lost, stolen or damaged charging cords, charging bricks, or cases.**

Any damage or loss must be reported to the Main Office of your child’s school. The first unintentional damage claim during the school year may be covered under the insurance plan but subsequent claims will incur a charge; \$100 for cracked screens, \$25 for missing or damaged chargers. Intentional damage or damage due to negligence will result in a charge for the full cost of a replacement from the school vendor. \*(See replacement costs below) In cases of theft or other criminal acts, a police report, or fire report in the case of fire, MUST be filed by the student or parent for the protection coverage to be utilized. A copy of the police/fire report must be provided to the Principal’s Office.

Families who opt out of the insurance option will be held responsible for ALL damage to their devices including, but not limited to: broken screens, cracked casing or plastic pieces, inoperability from jailbreaking, etc. Lost items such as cases and cables will be charged the actual replacement cost.

All parents must select one of the options below. The student’s device will be issued only after the student/parent agreement document of acceptable use, the device protection plan document and if applicable, the \$25 technology insurance is paid :

OPTION 1: SCHOOL PROTECTION PLAN - \$25.00 (though charges may be assessed as stated above)

OPTION 2: OPT OUT OF SCHOOL PROTECTION PLAN I accept responsibility for reimbursing Cannon Falls Area Schools for ALL repair to the device and replacement costs for lost or stolen items as determined by the district.

High School/Middle School device replacement costs:  
 Lenovo Chromebook \$228; Dell Chromebook \$239; Dell Latitude \$430

OPTION 3: Mobile Device Will BE KEPT AT SCHOOL. If option three is chosen, the student will be directed where they are to store and charge their device and is responsible for making it sure it is properly stored and charged

## Cannon Falls School District Student/Parent Summary of Acceptable Use Policy Form

The following is the most essential content for students and parents/guardians to review regarding Cannon Falls Area Schools "Acceptable Use Policy" #524. Using technology is a reality of our 21st century lives, learning, work and play but the use of school provided technologies is a privilege and must be used "to further educational goals consistent with the mission of the school district and school policies" (III.) Students will be given opportunities to learn about safe, appropriate and responsible use of technology through the curriculum and in extracurricular activities but the proper use of technology is "the joint responsibility of students, parents and staff". (XI.B.7.) Anyone using school technologies, devices or systems, must recognize that the safety of those using technology and the security of the system is the priority. [Acceptable Use Policy #524](#)

### Some guidelines for following the acceptable use policy:

- Limit access to one's device to authorized users and to websites that are known as safe and appropriate;
- Safeguard private information like an address, phone number, passwords, or access codes;
- Use technology to learn and teach in **SMART** way - **S**afe, **M**indful, **A**ppropriate, **R**espectful and **T**houghtful;
- Be respectful in the digital world and post content that is **T**ruer, **H**elpful, **I**nspiring, **N**ecessary or **K**ind;
- If you can download images, apps or extensions, follow the guidelines above to **THINK** and be **SMART**;
- Use electronic resources and communications in a responsible, considerate, efficient, ethical, and legal manner;
- Give proper credit to sources when information is shared, posted or published;
- Advocate for the safety of others and yourself and report and when possible, stop cyberbullying;
- When connecting personal electronic devices and technologies, follow technology use guidelines and expectations;
- If you mistakenly access or view unacceptable materials, share this with an appropriate school staff member;
- Use technology to support and enhance learning that is consistent with the District's mission and policies.

### Unacceptable use of technology as taken from the policy #524 means:

**Note:** The policy speaks to school district system or school system which means any and all school supported technologies

- Users will not "access, review, upload, download, store, print, post, receive, transmit, or distribute" material that is "pornographic, obscene, or sexually explicit" or "abusive...vulgar, rude, threatening" in words or images, is "inappropriate for an education setting" or could cause "disruption to the educational process."; and uses language or images advocating "violence or discrimination" and the harassment of others. (V. A. 1. a. b. c. d. e.)
- Users will not "knowingly or recklessly post, transmit or distribute false or defamatory information", to engage in "personal attacks including or harass individuals or groups in a discriminatory way or to "engage in any illegal and violates local, state or federal law". (V. A. 2., 3.)
- Users will not "vandalize, damage or disable the property of another person or organization", purposefully "degrade or disrupt equipment, software or system performance", "tamper with or modify" any part of the school' system in a way that disrupts its use by others, or "gain unauthorized access to information resources or to access another person's materials, information or files" without permission of that person.(V.A.4., 5.)
- Users will not post private information making an individual's identity easily traceable. For example any "addresses, telephone numbers" "identification numbers, account numbers, access codes or passwords, labeled photographs or other information" like posting or sharing "private messages sent to the user privately" without permission. (V.A.6)
- User account information and passwords will be on file with designated school district officials. "Users will not attempt to gain unauthorized access to the school district system" or log in to other accounts and use access codes not assigned to the user. (V.A.7)
- Users will not intentionally violate "copyright laws or usage licensing agreements" or "use another person's property without the person's prior approval or proper citation". This includes downloading or exchanging stolen digital content or materials or ideas as well as knowingly "plagiarize works they find on the Internet". (V.A.8)
- Users will not conduct business, "for unauthorized commercial purposes or for financial gain unrelated to the mission of the school district" or "to purchase goods or services for personal use" without authorization. (V.A.9)
- Users "will not engage in bullying or cyberbullying in violation of the school district's Bullying Prohibition Policy (MSBA/MASA Model Policy 514). This prohibition includes using any technology or other electronic communication off school premises to the extent that student learning or the school environment is substantially and materially disrupted." (V.A.10)
